

Computer Illustration Project Brief

Project 1: Vehicle Due:

Objective

This is a 2-part project which is due within a week of each other.

Part 01: Due 28th January

Use Adobe Illustrator to recreate the vehicle provided. Be sure to use all of the tools and concepts taught during this lesson: pen tool, shape tool, layers, grouping, locking, colour, gradients, etc.

Part 02: Due 4th February

Using a photograph of your own or taken for you, recreate a quintessentially Guyanese vehicle, one which is unique to the country. Use the tools and technique above to accomplish this project

The average of both assignments will be averaged into one project grade.

Outcome

Present a print-out of each assignment on their respected due dates.

Print-outs should be in colour and sized at 8.5inches by 11inches or A4.

The second part of the project **must** include colour used and **must** be printed on card stock paper.
