

## **Introduction to Photography Project Brief**

### **Project 1: Motion Due: 3rd February**

#### **Objective**

Use the elements of composition discussed to take photographs of motion; people in motion or objects in motion. Take into consideration the technical aspects of your camera that needs to be utilized to capture this motion.

Keep notes on your images. For example, time of day, subject, side effects of the camera. This is all information you are expected to present.

#### **Outcome**

Create a Power-Point slide show of 3 to 5 images which best show your subjects in motion to present to the class on the due date of this assignment.
